

All Stars Unlimited – Competitive Cheer Squad

OUR COMPETITIVE SQUAD PHILOSOPHY >> Because this world is so full of strenuous competition, All Stars has developed a competitive squad based in a positive and exciting learning environment. We want your All Star to gain that “competitive” experience as well as learn many new skills, all while having the time of their lives!

This exciting, fast paced cheer squad is perfect for those children and teens interested in competitive cheerleading. While All Stars has always, and will continue to always have performance based teams, there is a demand for competitive teams in a more relaxed and positive environment. We feel that our competitive squad is a great place for your child to experience all that competitive cheerleading has to offer, in a more positive learning environment. This squad will work very hard on developing a competition routine, as well as to learn and experience all aspects of cheerleading. They will have team conditioning to help strengthen their bodies as well as improve flexibility. All of these things they can take with them through their lives. But most importantly they will have fun and their self esteems will truly develop into something amazing!

Instructor approval needed for all participants. A full season commitment is REQUIRED (July-May). Participation in scheduled practices and competitions is a must for the squad to have success in all that they do. Team Packets with more detailed information will be given upon enrollment or at a mandatory meeting pre-season.
